*Rolled Coils*

### SICAK HADDELENMİŞ RULO

- Commercial
- API\*
- HSLA
- Structural
- Pressure Vessel
- Corten Steel
- Chequered steel

API 5L Grade can be produced to cover both sour and non-sour applications:

<b>Non-Sour</b>	Gr. B, X42, X46, X52, X56, X60, X65, X70, X80
<b>Sour</b>	Gr. B, X42, X46, X52, X60, X65

# SOĞUK HADDELENMİŞ RULO

## Özellikler

### Full Hard

High hardness, low tensile strength and ductility.

### Annealed

As cold rolled full hard coils are not suitable for most applications due to high hardness, ultimate tensile strength and low ductility, the coils are annealed to the recrystallization temperature in the Batch Annealing Facility (BAF) to improve the workability for various applications.

### Tempered (Skinpass)

The surface roughness of Cold Rolled Coils and Cold Rolled Slit Coils is controlled by tempering.

## DIMENSIONS / SIZES

Product	Thickness (mm)	Width (mm)	Inner Dia. (mm)	Outer Dia. (mm)
Cold Rolled Coils	0.3 - 3	850-1650	610	1950
Cold Rolled Slit Coils	0.3 - 3	75/800	610	1950
